OBJECTIVE

Final-year B.Tech student (Batch 2027) with strong analytical skills, proficiency in Excel/Google Sheets and a research mindset. Seeking the Strategy Intern role at Chakr Innovation to support market research, competitor analysis and strategic documents for cleantech emission-control products.

EDUCATION

B.Tech in [Branch] — [University / College Name], [City] | [Month 2023] – [Month 2027] | CGPA: [X.XX / 10]

Class XII ([Board]) — [School], [Year] — [XX]%

Class X ([Board]) — [School], [Year] — [XX]%

RESEARCH & ANALYTICS PROJECTS

[Market / industry research project, ideally on energy, emissions, diesel generators or sustainability] | Excel / Google Sheets

- Collected secondary data from [sources, e.g. CPCB, MoEFCC, industry reports] and structured it in Sheets (pivot tables, lookups, charts).
- Compared [competitors / technologies / regions] and summarised findings with recommendations in a [X]-slide deck.
- [Outcome or number: size of dataset, number of players compared, insight found]

[Data analysis project] — [one-line description] | [Python / Excel / SQL]

- [Question asked, data used, method, result]

leakkill (formerly secretsan) — open-source security tool on PyPI | github.com/ayushanand27/leakkill

- Researched how credential leaks happen and designed a scanner covering pre-commit checks, full git history and live-secret verification.
- Built CI, tests and clear documentation so other developers could adopt it independently.
- Worked independently from problem definition through to a published, installable product.

SKILLS

- **Analysis & research:** MS Excel / Google Sheets (pivot tables, formulas, charts), secondary research, competitor analysis, data cleaning, basic dashboards
- **Tools:** Python, [SQL], [PowerPoint / Google Slides], Git/GitHub
- **Communication:** Written reports, presentations for leadership, clear documentation
- **AI:** Use AI tools to speed up research and drafting, verifying every source and figure myself

EXPERIENCE / INTERSHIPS

[Role] — **[Organisation]** | [Month Year – Month Year]

- [Research, analytics or documentation work; delete section if none]

INTERESTS & ACHIEVEMENTS

- Interest in sustainability and cleantech: [course, article series, club, project or personal initiative on air quality / energy]
- [Hackathon / competition / certification]
- [Leadership or volunteering]
